NRA Basic Pistol (Semi-Auto) & Wisconsin CCW

June 18th 2018 | September 22nd 2018

The NRA Basic Pistol (Semi-Auto) course is ideal for the novice shooter. The goal of this program is to teach the participant the FUNDAMENTALS of Firearm Safety and Shooting.

NRA Basic Pistol (Semi-Auto) provides hands-on orientation to the semi-automatic action type of pistol in half day format, including a shooting session on a range.

Since the NRA Basic Pistol (Semi-Auto) course is action type-specific (only one specific action type of firearm is taught), and teach only the most basic shooting skills, they are not complete "courses" in the traditional sense of the word.

The NRA Basic Pistol (Semi-Auto) course does provide a thorough introduction to firearm safety, handling, and shooting skills for that one specific action type of pistol. These skills require regular practice.

If you are new to firearms and the shooting sports, this course may be the perfect introduction.

We will be adding a section covering the requirements for Wisconsin Concealed License after the end of the NRA Basic Pistol (Semi-Auto) course. You will receive a second certificate that will allow you to obtain your Wisconsin CCW License. The portion will add an additional 2.5 – 3 hours.

Students **may** use their own firearm, ammunition, eye, and ear protection for the course **only after it has been inspected and cleared for use by the instructors**. If student does not have a firearm, one will be provided with the appropriate ammunition for an additional charge of \$25.00.

Class will begin at 9:00am

<p>Class Total Limited to 16 Students Enroll Now! ! These courses fill to capacity QUICKLY!
